Professional Summary

I am a third-year student of BScIT, In the Second year, I joint a Digital Marketing company which is a startup. they want my knowledge and I want a project and learning these thoughts helps me to grow.

They offer me a project which is a dynamic education website, a solo project name is <https://www.educationmandal.com/> build using PHP, jquery, ajax, etc. which have different 4 dashboards.

I have 6 months of experience in the web developer filed and work on 3 different live websites.

Employment history

Web development.

<https://www.educationmandal.com/>
https://mk1319.github.io/React_Movie_Rating-List/

Education Mandal is my first and biggest website. this website challenged me and told me like "if you want me to complete learn this and everything".
This Website is not released yet, because of the pandemic.

React Native..

<https://github.com/mk1319/ReactNative-EmployeeApp>
This is my ReactNative+MongoDB Application.

https://github.com/mk1319/ReactNative_Covid-19
Another Application That shows live COVID cases of the world.

Education

Nagindas khandwala College, mumbai, maharastra
[Bachelor of Science, Information Technology](#)

Additional information

Github Profile:- <https://github.com/mk1319>
Sololearn Profile:- <https://www.sololearn.com/Profile/10534412/?ref=app>

I Completed a 30+ Udemy course and I have 10+ certificates of [udemy](#) course.
Self-learning is Most important in today's growing technology world.

In initial when I started working on a project it takes up to 3-4 hrs in solving the error, this is enjoyable work and differently, want patience.
"The solving error means to give birth to new skills."
